

and other stuff too

30 Jan 10 **Fast List Building**

One of the most fundamental ways to grow your business is to increase your number of customers. That's what list building is all about, and you should be working on that consistently. You should generate leads, then work on converting those leads into paying customers. You should then work with your customers to increase the value of their average transaction, and also increase the frequency of transactions.

But first things first...

The best way to get offers in front of non-customers is to have their contact information. Email, snail mail, or telephone calls to targeted leads is much more effective than other methods for getting offers in front of eyeballs that result conversions. Knowing that, the question then becomes: what is the most effective and inexpensive method of generating targeted leads?

Well, young gun James Penn has the answers.

In his concise and enlightening report, Accelerated List Building, James lays out his methods in detail for building targeted niche lists quickly that result in four figure paydays for him from a single email.

The price, a measly \$10, is downright silly. And the bonuses he throws in make this deal a total no brainer.

04 Dec 09 **Free Master Resell Rights**

If you've been around the IM scene for awhile, you may remember the buzz about Simon Chen's seminar videos being posted for free viewing (or maybe not)...

I saw it and got curious. In fact, I got obsessively curious and searched long enough for more gems that I finally stopped when I'd been looking at the monitor for so long it felt as though my eyes were bleeding.

And I found enough garbage to fill a couple of really big hard drives.

But the treasures I found buried in the mounds of garbage made my virtual dumpster diving well worth the hours and hours of digging.

And as I uncovered the gems amongst the junk, I began realizing how much more valuable these were than simply the educational value of watching them, learning, and putting the knowledge into action.

There is value in analyzing how the best videos are put together before recording your own.

There is value in using them in affiliate promotions.

There is value in using them on your own sites for the sticky factor.

Say for example, you want to promote an affiliate product by a well-known (or not so well-known) marketer. Imagine the leg up you would have on your competition by creating a landing page, or even a blog post, with a video featuring the product originator. Instead of the canned email message for the promotion, you could send an email telling your customers about the free video they can view on your site. Then you promote the affiliate product on the page the video is on and don't even mention it in your email.

That's just one simple technique that could create a significant income stream.

So, here's the deal.

I bookmarked about 75 hours worth of the best stuff while I was searching.

I now like to call my finds MTV (for Marketing or Money TV).

I'm talking Carl Galletti, Armand Morin, Jay Abraham, Stephen Pierce, Yanik Silver, Michel Fortin, Alex Mandossian, Seth Godin, the list goes on...

These range from short 3 minute clips to full seminars.

There's everything from a short instructional video on how to ftp using Filezilla (I bet some of your customers would appreciate that), to a complete tour of the Google factory, to Jim Edwards and Mike Stewart rapping.

I organized it all into a nice little pdf that you can be proud to sell your customers.

Did I say sell to your customers?

Yup, you get free master resale rights to this report, with two ecovers.

And best of all...

You get it all for free!!

02 Dec 09 Traffic Lottery Script – Free Traffic Generator

Traffic Lottery is a Web 2.0 script for a free lottery game for webmasters to win free traffic to their website. Monetization for the host of the site is with ad network banners, Adsense (already integrated in the script), and through the sale of VIP Memebrships.

How it works?

It is as simple as lottery. You just need to submit your web page's url and you get a chance to win the lottery.

What do I pay? And what do I win?

Visitors receive a free lottery entry by visiting the most recent winner's site. The lottery winner for that day will receive all of the traffic for the next day.

How many time can I submit my web page?

You are allowed to submit only one url per day.

(This can be changed by the site admin)

Are all websites permitted?

No. Websites with pornography, obscene or defamatory content will be removed and banned permanently.

(also controlled by and at the discretion of the site admin)

How often does the lottery draw take place?

The lottery draw takes place every night at a server time determined by the site admin.

If I win today, what are my changes to win again tomorrow?

The winning web page is selected through a random algorithm. Every draw is independent of previous results.

Welcome to

TRAFFIC LOTTERY

Get Free Traffic Everyday

Play lottery and win traffic to promote your website.
